INTRODUCTION

- Atomic is an online Movie Ticket Booking Web App designed using the MERN stack.
- It provides an easy and efficient way to browse, book, and manage movie tickets while offering a powerful Admin Dashboard for managing cinemas, movies, showtimes, and reservations.

KEY FEATURES

For Users:

- Browse Movies & Showtimes – View available & upcoming movies, genres, and showtimes.
- Book Tickets Online – Select seats get instant confirmation.
- Get Email Confirmations – Receive booking details via emails.
- Receive QR Code for Check-In – Use a QR code to enter the cinema.
- Dark Mode UI – A modern and easy-on-the-eyes interface.

KEY FEATURES

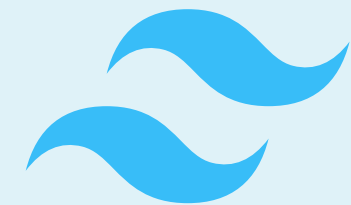

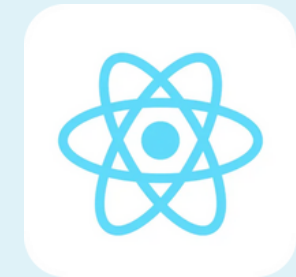

For Admins:

- Add/Update/Delete Movies – Manage movie database dynamically.
- Add/Update/Delete Cinemas – Control cinema branches and locations.
- Manage Showtimes – Define timings for different movies.
- Handle Reservations – Approve/cancel customer bookings.
- Manage Users – Create, update, or remove user accounts.
- Generate & Export QR Codes as PDFs – Secure check-in system.

TECH STACK OVERVIEW

Frontend (Client-side):

- ReactJS – Dynamic and interactive UI.
- Redux – Manages application state.
- TailwindCSS – Ensures a clean and responsive design.

Security Features:

- JWT Authentication – Secure user logins.
- Data Encryption – Protects sensitive user information.

TECH STACK OVERVIEW

⚙️ Backend (Server-side):

- NodeJS – Handles APIs, authentication, and server logic
- MongoDB – Stores user data, bookings, movies, etc.
- Mongoose – Simplifies database interactions.

SYSTEM ARCHITECTURE

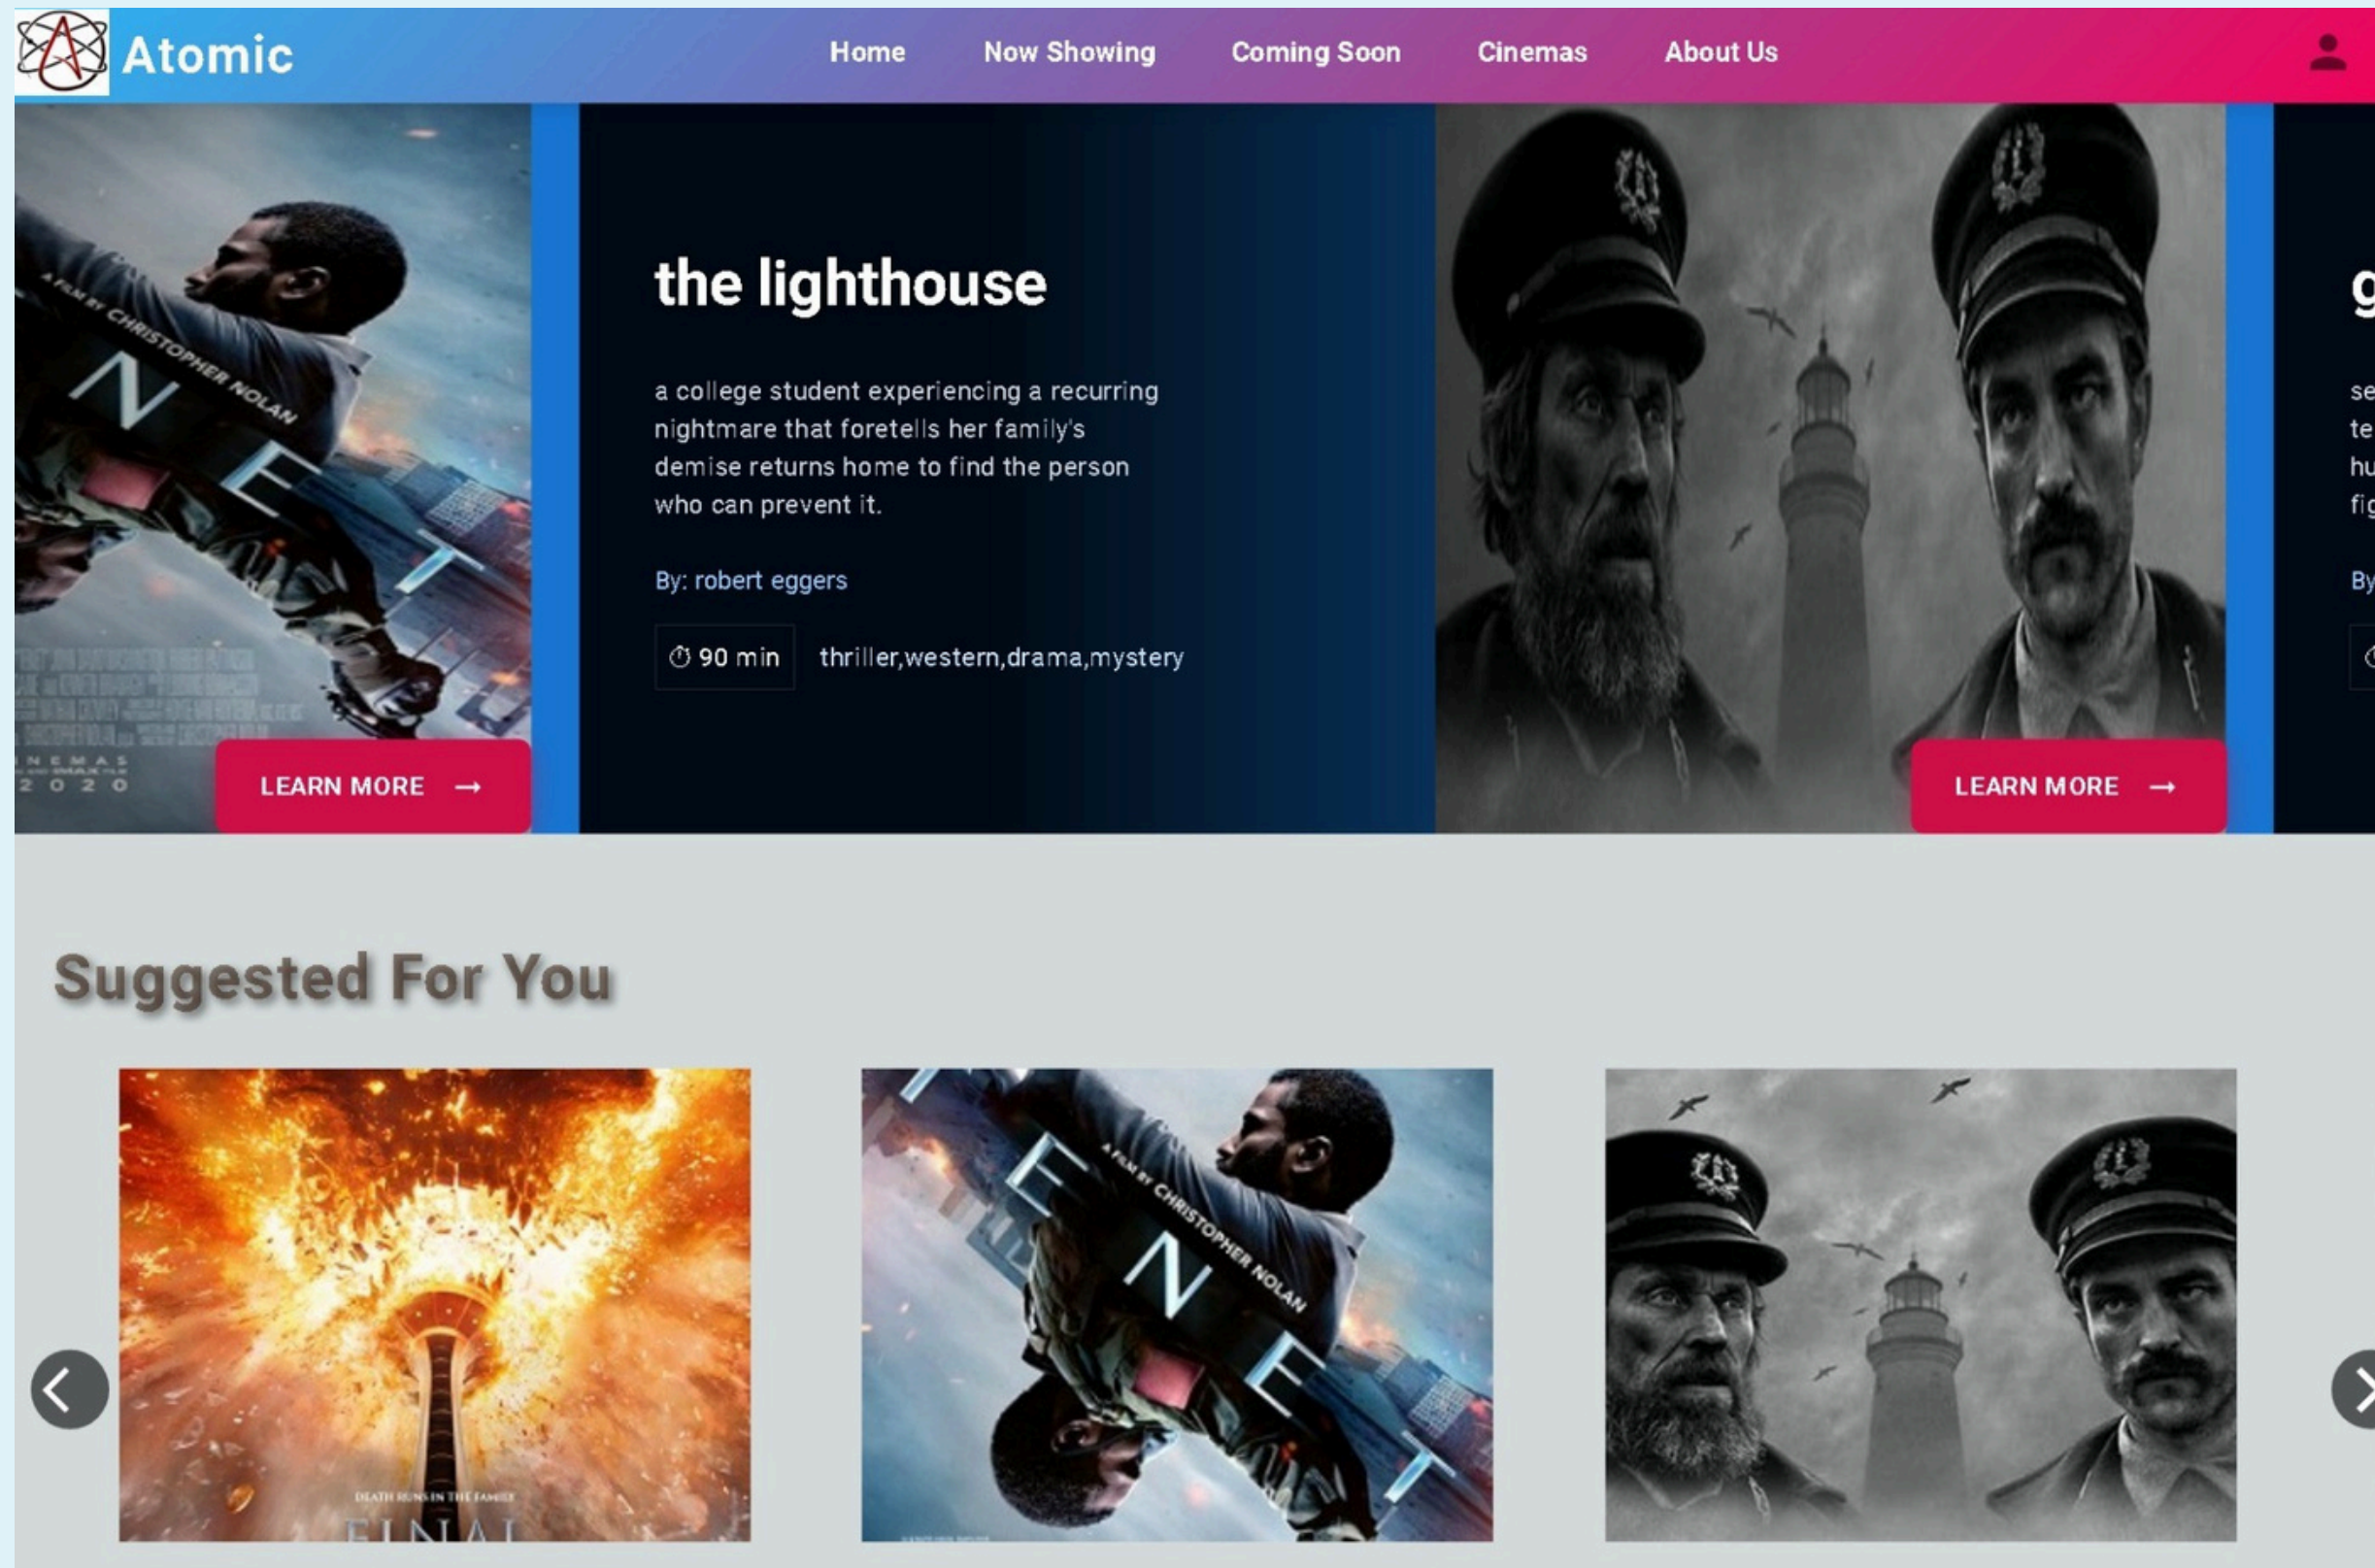

- User Requests: User interacts with the website via ReactJS
- API Calls to Backend: Requests are sent to ExpressJS and NodeJS.
- Database Operations: MongoDB stores and retrieves required data.
- Response Handling: Data is sent back to ReactJS for display.
- QR Code & Email Handling: The system generates and emails booking confirmations.

FUNCTIONAL REQUIREMENTS

- User Authentication:
 - Secure registration, login, logout
 - Password encryption
 - Account recovery via email
- Dashboard:
 - User profile management
 - Basic navigation
- Admin Management:
 - View and delete users

SCREENSHOTS

- Title: Reservation Summary (Admin View)

The screenshot displays the 'CINEMA APP' interface in full-screen mode. A purple header bar contains the 'ATOMIC' logo and a close button. A blue sidebar on the left lists navigation options: Dashboard, Movies, Cinemas, Showtimes, Reservations, Users (highlighted), and Account. The main content area features a table of users with columns for Name, Username, Email, and Registration date. Each row includes a checkbox for selection. A dark overlay at the top of the main area provides instructions on how to exit full-screen mode. An 'ADD' button is located in the top right corner of the main area.

SCREENSHOTS

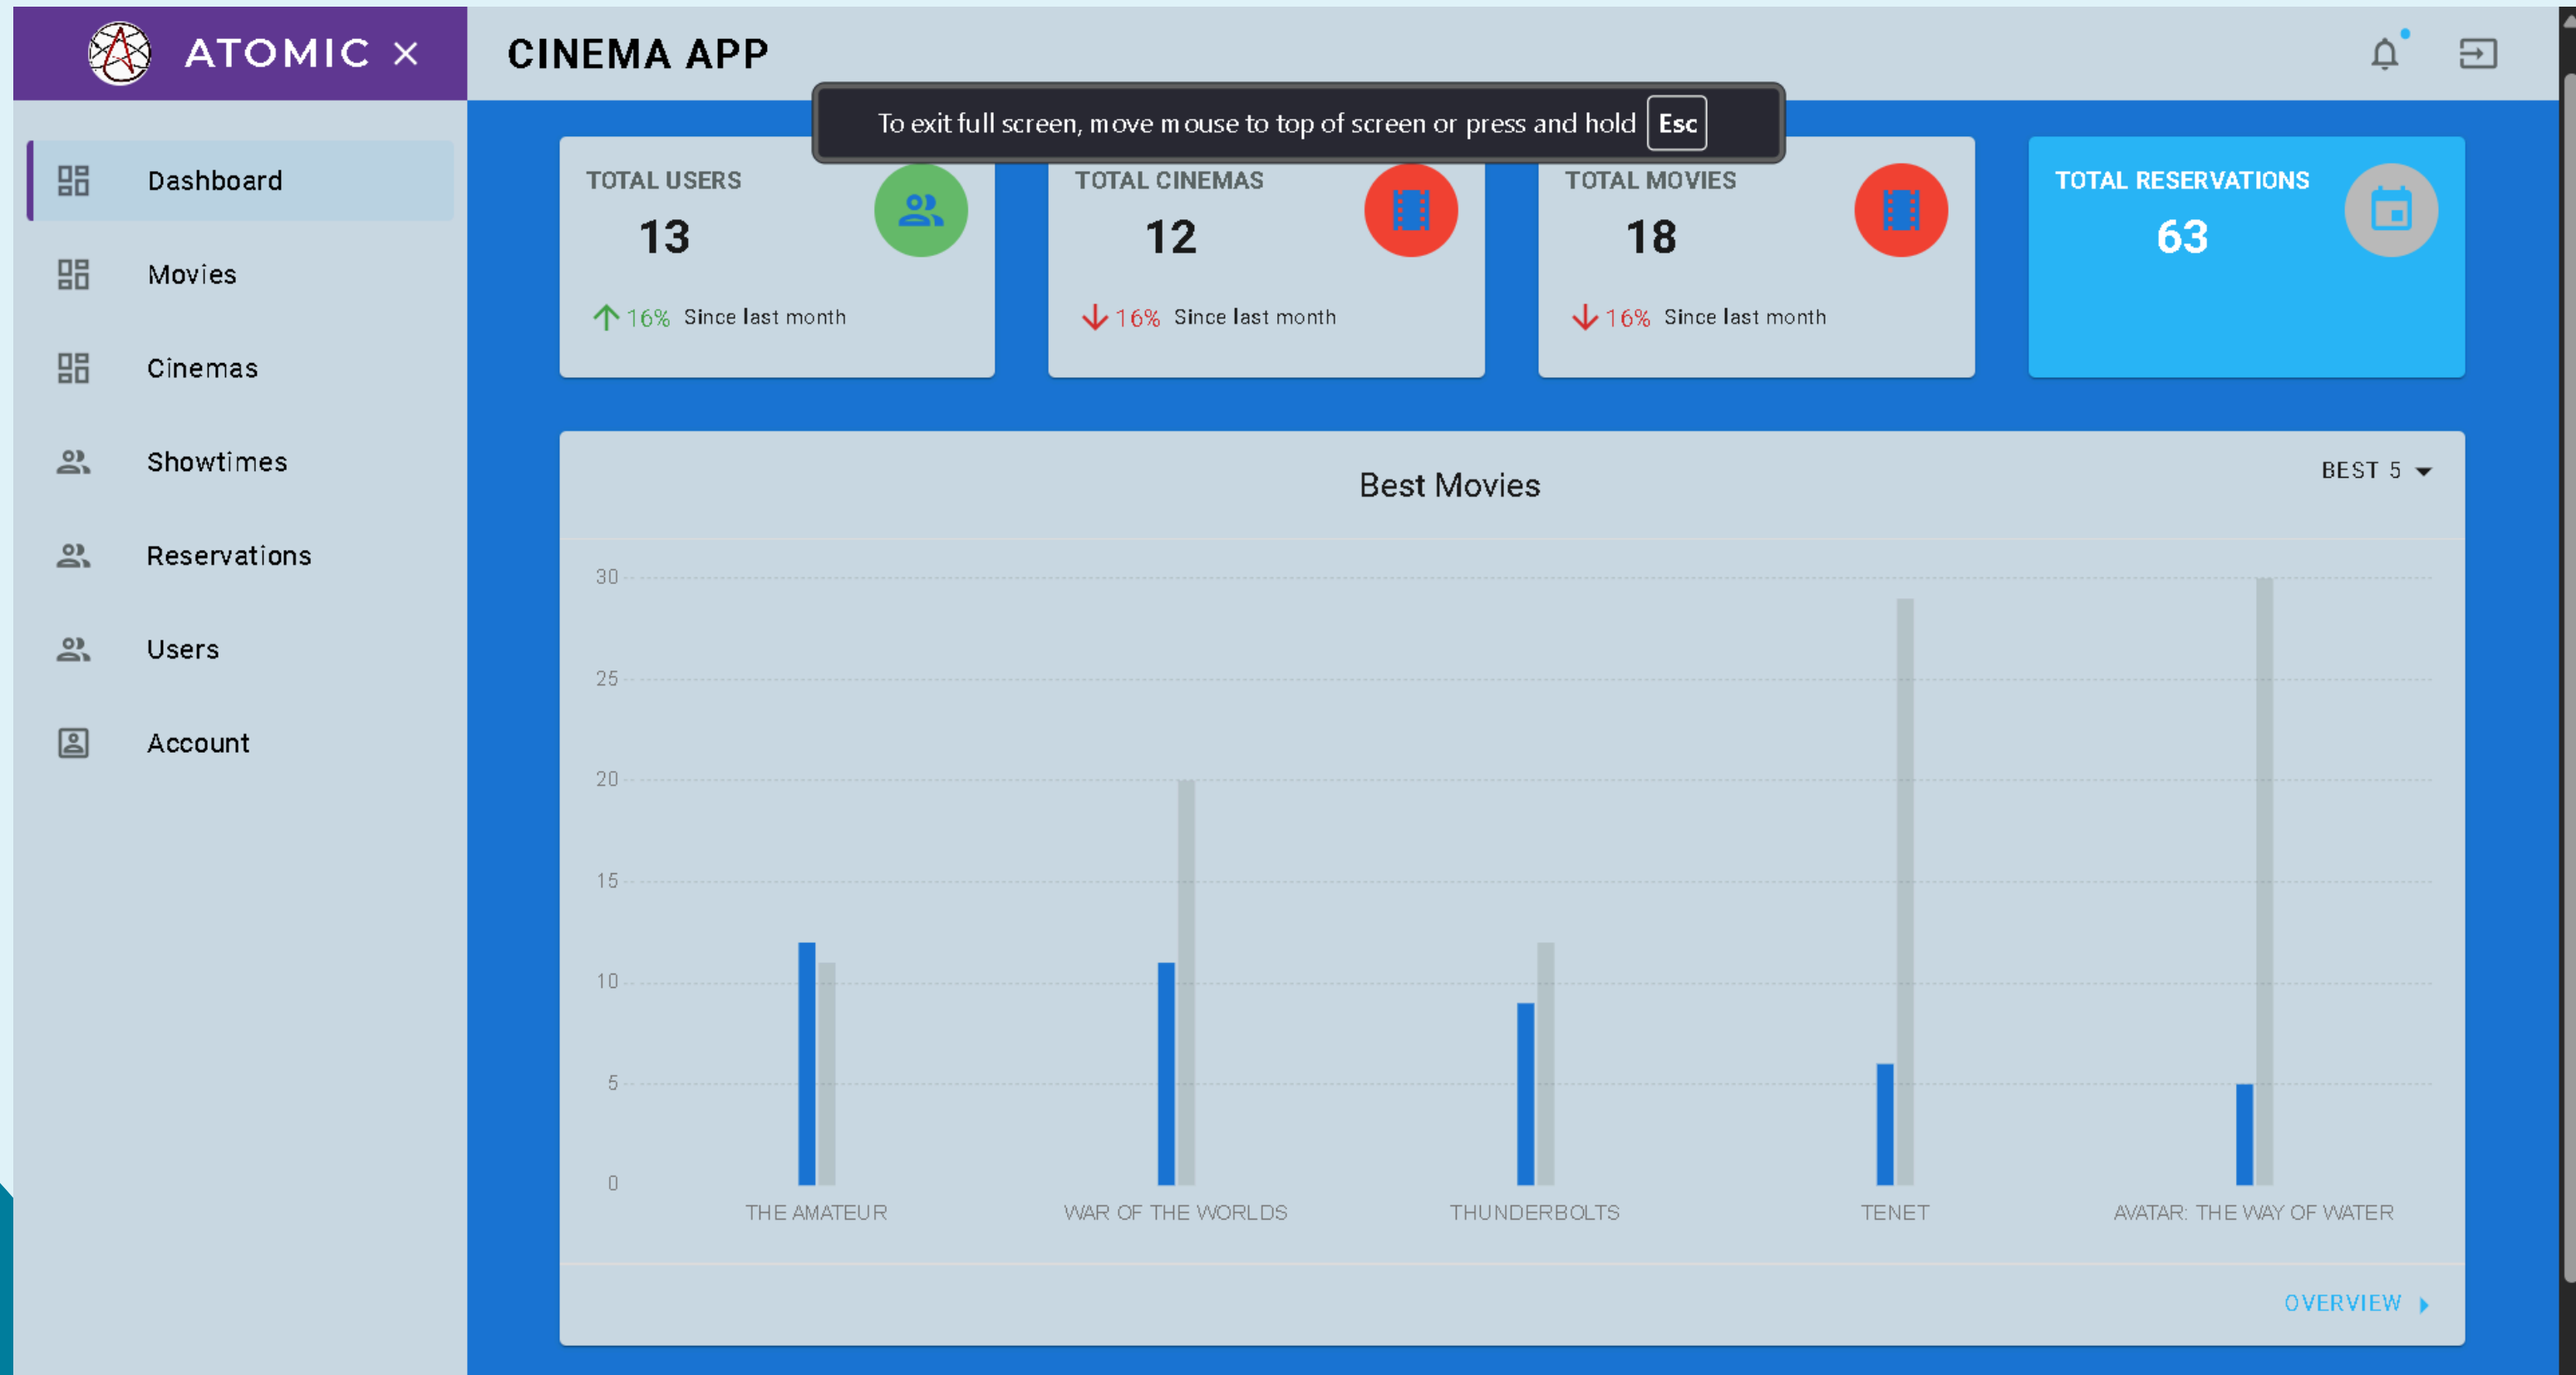

- Title: Admin Panel – Manage Movies

The screenshot displays the 'CINEMA APP' admin interface for managing movies. The top navigation bar is purple with the 'ATOMIC' logo and a close icon. The main header is blue and contains a search bar labeled 'Search movie' and an 'ADD' button. A left sidebar lists navigation options: Dashboard, Movies (selected), Cinemas, Showtimes, Reservations, Users, and Account. The main content area shows a grid of movie cards. Each card features a movie poster, the title, a brief description, and a duration icon.

Movie Title	Description	Duration
Kingdom	"kingdom" is an action-packed spy thriller...	150 minutes
The Fantastic Four: First Steps	on a 1960s-inspired retro-futuristic paral...	140 minutes
Superman	a survivor from the destroyed planet kry...	140 minutes
